To the Functio.—We have announced that this bank has been compelled, by force of circumstances, to make an assignment of its a-zers for the benefit of its creditors, in consequence of malicious and unfounded reports as to its solvency: We had hoped, however, that we were strong enough to withstand the attacks upon the bank, but the extreme, attringency of the money market, and the utter and entire lack of confidence on the part of capitalists in any business, has made it impossible for us to obtain the means with which to meet the liabilities of the bank without too great a sacrifice to it, and danger of ultimate loss thereoy to its creditors. In view of all things, we determined to place the assets of the instruction in such a circuitor that its whols cy: We had hoped, however, that we on in such a cituation that its whole of the institution in side a situation like the pay-effects would be faithfully applied to the pay-ment of its debts. Correspondence of the Sentines. The State Superintendent. Madison, Sept 28, 1867.

Mrsans, Epirons :- I saw in a late number of the Sentiael a.c. mmunication of the Hou, A. C. Barry, putting in issue nearly all the facts arrived at by the late joint committee for lovestigation in relation to the condition of the Department of Public Instruction, and also an intimation editorially, that it was probable some mem ber would roply thereto. I do not know how far my late associates, would feel called upon to enter into a public controversy on this subject, nor do I regard it as especially becoming in me to enterintowny newspaper defence of the joint report, It embodies but the unanimous opinion of the committee, after a long and patient investigation and the sworn testimony of a large number of respectable witnesses. I need scarcely say that no member of the committee supposed that the Superintendent would agree with their concinsion, or heavily endorse the facts arrived at .-But, with his denial, it comes to this, that either our judgment and our proofs are entirely at fault, or his o-certifus are erroneous. A more careful reading of the report might

probably show Mr. Barry that he has fallen into saveral errors in his reply. White the committee charge a general and pervading neglige: co o official duties, they have not pretended to say there are no eases in which he has not attended to business. It is what is neglected and must conded to, and not what is performed, that it complained of. The committee took the books or the office as they found there, and noted what thry report; but Mr. B. replies in substance that he inaugurated a new system in the office and filed his official papers instead of recording them. That great masses of letters community the

office unrecorded is what the committee complain of; and especially of oaces of appeals. Instead of the order and method of his predecessors, by which any succial case can be turned to its a mo ment, no one energialisted with the office car find on thing without great and redious search. That "capying press" is a positive svii, if these are its legitimate results. We found no book in which lensers or other papers were replied by such a pross, and if such a record exists it sa caped our notice. So of the reports of Clerks of test. County Boards of Supervisors. We took the record as we found it, and saw no other.

There are some 4,000 schools and about 150, 300 scholars in Wisconens. The proper atten dance upon their wants and necessities necessar aly requires active and critical labor-and sepecially order and method in all business arrangements. The Superintendent's office is called a Department, and we expected to find it such Mr. Barry's new system, of keeping files instead of records, is a just and proper source of com-plaint; but when to this are found hundreds of official letters and papers unfiled, scattered about o sely upon tables and in drawers, intermixed with all manner of rubbish, unarranged and un-

no such intention.

Mr. Rary spent two weeks in his office during the last six months? We were informed and be lieved that he had not even one. His sonhid of 18 or 20 years—reputed rather fast—has page upon numerous and important appeals; involving nice points of discretion and law, and affecting the great educational interests of the But the office, for a great portion of the time, has not been kept open at all. It was closed nearly she whole of last June—and has not been open half the time during business hours, as crats had one member), and the House stands 115 as a general rule. A horse race, a boat ride, or a circus, it would seem, at any time had power to shut up the Department. Is that what Mr. Barry calls strict attention to business?" Among the scores of people who came to do business while the committee held the office, there was not one who did not compisin-many have called several times and found the office locked-and some had some up from distant parts of the State on official husiness, and had to return because the Depart-

ment was shut up. In short, there was a general, If not urtered awar on all sides, both by norsons and in letters, at the atter negligence in the Mr. Barry seems to think it hard that he is

held responsible for these delinquencies; but the committee knew of no other person to hold responsible. While he has been absent formouths from the State-reputed to be at Washington -they know that his office has been practically sugnenced, and that it was his business to at tend to it. They know that he is entitled to a clerk and an assistant, and by these terms they understand not a temporary arrangement merely -but persons to keep up the records, and to have the office open at all times, during proper hours, so that every citizen of Wisconsin can b promptly attended to when they have business with the Superintendent. Mr. Barry anys tha he was had "competent and experienced clerks." but we neither found or heard of any such-and if he has had them, we know it could only have been for a very short period of time. Mr. B intimates that we "locked his son out of the of fice." This is more obsurdity, and he might have known botter than to have uttered it. The key was left in its accustomed place for two or three days after he left town, hoping that he would re-appear, se we wanted him particularly; but be had not turned up at the and of ten days, and we had no option but to serrender the key to the Governor, or leave the Department as we found it, and liable to any amount of depredation.

Mr. Barry thanks us for exonerating him from the charge of official corruption, but the language of the Report is that in our opinion, it "has not been proved." It is due to carselves to say, that in bis case we did not adhere to the stern and rigid ule we applied to the heads of other Departments. The absence of usual business qualities and obvious inattention and neglect, had somethis g to do with the final conclusion; for we thought a person of more worldly sagacity, entertaining propositions from publishers, would have guarded against a great many circumstances, prima facie suspic ious, which appeared in this brauch of the investigation. We believed the charge was not proved—but there is a great deal Finding that nearly all the occupants of the of truth in this world not capable of proof in a house had gone out, he went to the room where court of justice; and the committee could readily see a very powerful motive on the part of pub-

lishing houses, to obtain at any rate his sanction of their school-books.

Mr. B. promises to show the "origin and spirit" in which this investigation has been conducted," Its "origin" was an act of the Legislature of 1856;—its "spirit" has been to scarch to the of 1856;—1: "sprit" has been to sent in the bottom of things in every State Department — We have reported on all of them, and the facts — very rarely inferences or conclusions. When, as in the Bank Department, we thought there was wrong to any extent, we reported remedies; but these remedies were not always adopted.— If they had been, our State would have been no place for "wild cast" now. Yesterday afternoon policeman Bohan arrested joung man named Robert Turckesso at the epot of the Milwaukee & Wetertown R K, who had just made a baul of about \$500 worth of ewelry, and was taking passage on the cars bout to make off with his booty.

The particulars of the theft as near as we could learn, are these: A pedlar named Adam Hanover was buarding at a house on Main street, where he kept a box or trunk containing a large amount f jewelry and valuable articles. Turckesan, we believe, was boarding at the

same house, and discovering where Hanover kent this jewelry, he recoived yesterday afternoon, as favorable opportunity presented itself, to make a break upon Hanover's treasures, and clear out from a number of valuable watches, lockets, and watch chains, and packing them in his valise, be proceeded to the cars, and was about leaving for tarta unknown when arrested. He was taken immediately before the Grand jury, and will probably be indicted to-day, and tried during the oresent term.

RUNWAWAY.-A farmer's team became frightmed yesterday afternoon, on Second street, near the depot of the La Crosse & Milwaukee Railroad, broke their fattening and ran away, breaking the wagon all to smesh, and so frightening another horse that he ran away also, but was etopped before doing any mischlef. The larmar's team, after ranning through nearly all the streets in the Second Ward, took to the alleys, and finally deshed through a barn and brought up in the kitchen door of a house at the other side of the stable.

SOMETHING NEW AT HAND,-A Mr. S. C. HEW irr, of Boston, Mass, has been entertaining the good crainens of Cleveland recently with a novel course of lectures, and as will be seen by the subjoined extract from the "Claveland Morning Leader," to overflowing and intelligent andiences. We enderstand that he will commence a similar course, commencing on Saturday ovening next, of which dincly notice will be given. Now, we have no very great objections to Dame Matura making such overtures as she pleases, providing we have direly notice, and this our readers will perceive we are to have. We would commend this whole metter to the serious consideration of our Demogratic friends about these days. But for the extract.

from the "Gleveland Horning beader."
On the Uniels -- Fromont Ball last Sunday was irrowded to practice and the collegent audience, deeply interested in Mr. Howitt's ivotures. These discourses are such as to elicit the most protound thought and ettention. Mr. H. goes beyond the mere phenomonal, and unfolds in the most interesting and solentific manner, a proposed that the statement the citation of the statement of the continuous of the statement of the st to get "something" to drink," as he teld the something to drink, "as he teld the story, but the estimate of heif a dezer or more right and the something to drink, "as he teld the story, but the estimate of heif a dezer or more right and the something minds in every scaled of philosophy, and the signs and others for the purpose of reliding a now, who seems and quarted which be had not by Wareks, who was formerly his employer.

Deputy sheriff Mayers, pettifogged for him, but notwithstanding the signs every sheriff the seems of the seems and the story is solid new planet to be beautified, and man to be elevated—in short the milleration is nich. that the millennium is nigh.

NEW NOVEL BY THE AUTHOR OF THE "LAMP LIGHTER." - We are indebted to Mesera. STRICK-LAND & Co. for an early copy of "Mabel Faughan," a new novel by the author of "the amplighter," from the press of John P. JAWATT & Co. Boston. The Boston papers speak highy of this work, and the reading public, remomering the ments of "tac Lamplight er," wil give its successor a cordial welcome. Mr. Krupshalt, 175 Esst Water street, also

ends us a copy of the work. MUSICAL SCOLETT CONCRET.-Our Millwaukee Musical Society announce one of their attractive Concerts at Young's Hall, this evening. They offer an excellent programme, and will give a first rate entertainment.

Suffrage in Kansus. Gov. Walker's latest-Proclamation ann to the People of Kansas the terms and condition upon which they are to be allowed to vote at the soming October election. The organic, as final ly passed, gave the right of suffrage to all " tree white male inhabitants," 21 years of age, actual ly residents in Kansas, who were citizens of the U. S., or had declared their intention to become such. When this Act was under discussion the U. S. Schate, a successful attempt was madto restrict the right of suffrage to citizens; a majority of the Democrats voting for, and a ma of the Republicans voting against, this restriction. The House of Representatives, however, refused to concur in the amendment

and the Senate receded.

What Congress refused to do, the Border Rutfan Legislature of Kansas have since effected.— They have, by formal enactment, disfranchise all those foreign-born residents of Kansas, who have not yet taken out their second papers. Here is the language of the law as quoted by Gover-

and Walker:

Egg. 5., Every bong fide inhabitant of the Torritory of Kansas, being a citizen of the United States, operthe age of twenty-one years, who shall have resided six months in the Territory before the next general election, for members of the Council and House of Representatives, and no other person whitever shall be entitled to vote at any general election, hereafter to be held in this Territory.

The very bong fide inhabitant of the Torritory before the next general election, for members of the party leaders, and "buckle to" any load given them to draw, they fall to abusing them at more.

Drawcorker of Progress.—Col. Jefferson Dates.

The reason for this exclusion is obvious. Pars Lanos. Hence, it becomes an object with the slavery propagandists to exclude as many, of them as possible from the State. The law of the begus Legislature, above referred to, disfran-chises hundreds and thousands who were allowed to vote under the organic act. Gov. WALKER scetting this disfranchising set. President Bechasas and the Federal Administration sustain it. The "National Democratic" Press and Party sustain it. They owe everything to the votes of adopted citizens, and yet justly and uphold the Border Ruffian Legislature of Kansas in everyant chiring thousands of foreign born residents, with the tole law of diminishing the Free State vote, and giving the pro slavery men a better chance of

When a few weeks since, the American of was filled with articles severaly can suring the Directors of the les Crosse and Mil wankes R. POLICE CONTRACTOR But times has changed. The company has become emburrassed by the hard times; to quote the lauguage of the News, its stock is " almost worthless" and it is reduced to " a miserable condition." And the News, so lately its zonious champion, has become its persistent assailant Its columns teem daily with charges against the company of having bribed the Governor, bought up the Legislature, and oven guilty of other high grimes and misdemeanors. We do not suppose that these attacks are prompted by any special mailee towards the company, or even towards Gov. Baserond, whom the Acres accuses of having pocketed a bribe of \$50,000; out rather that the News has some remote idea of connec ting Judge RANDALL, with the alleged corrupt transactions, and thereby injuring him in the pub lie estimation. And it is this forlorn hope that induces the News to repeat, day after day, its columnious assiults upon Gov. Beserond and its charges of bribery and comunition against the

But so far as Judge Randall is concerned, the News clampre in vain. No man in the State la more free from entanglement with the dif ferent Railroad interests, or can show a lairer record or deader hands throughout his public career Even the Name does not venture to charge him with being bribed, and though it should make out that Gov. BASHFORD and every member of the Legislature had been bought up by the La Crosse Company, that would not touch Judge RANDALL. As to the charges against Gov. Basn-PORD, the Week Suys: The Barrier See gains

The fact of his receiving it, is not denied, at though the Sentinet in d Knee Democrat suggest, in a round about way, that the La Crosse H. R. had better deny it.

The churce has been repeatedly and explicitly denied, and the News challenged to prove it. But it has no proof to offer. The calming tests en its unsupported assertion—the assertion of a paper which deliberately fabricated, a few days since, the proceedings of a Temperance meeting in this city, and published and said adheres, to as true, what it know to be utterly and scandalous ly lake. Or course, accusations from such a cource neither require, nor merit, the slightest creduce, and do not need roply. They carry the its on their face, and impose upon nobody;

Cross and Free Suffrage. The News is greatly exercised in mind by ou statement that Mr. J. B. Choss, its candidate for Mayor, headed the petition sent from this city to the Legislature last winter, asking for the passage of the Free Suffrage Act. After all the out cry that the Barstow press have made about the abominable attempt of the Republicans to "ele-

vate" the blacks to a level with the whiter, it is not a little awkward and perplexing to find that their own candidate for Governor stands recorded in favor of this wicked Republican measure.

The News is at its wirk and to invent excuses for the government is, the maintenance of human rights, and the test of a just administration is the extent to which it carries that doctrine into making the extent to which it carries that doctrine into vate" the blacks to a level with the whites, it is Dross, and manufactures a new one every day. Here is it last:

Here is to last:
Their discovery that Mr. Cross signed a petition to the Legislature to have the question of negro suffrage submitted to the people; amounts to nothing. It is enough to know that he does not degite to see white citizens and black verante reduced to the same level in this State A petition may have been presented to him; and, in a noment of haste, without bestowing upon it any thought, he may have algord it. And it would not be strange if he signed it deliberately. The Ropublicans have so long sing this matter through the State, that he may have wished to have it at once and forever settled. But if Mr. Cross did sign the petition, it was only that the Democracy might have an opportunity of beating the Republicans on their pet hobby.

At first, the News told us that Mr. Choss signed the petition in order to have the People, and not a "partisan Legislature," settle this question. Upon being apprised, however, by the Sentinel and Free Democras, that the Legislature had no power to settle the question, the News tries another tack, and says that Mr. Cross signed the petition "in asse," and without thinking about it. Then, not satisfied itself with this story, it says that Mr. Ceoss " signed t deliberately," in order to have the question of Free Suffrage "at once and forever settled" This is just as abourd as its first excuse, since whatver the result of the vote, this year, the ones tion may be at any time submitted again. Finally, the News concludes that Mr. Cross signed the netition in order to beat "the Ropublicans on their pat hobby." This is rather the ismest invention of all. The fact is, that Mr. Gaess signed the position deliberately, in good faith, and be cause he was in favor of its object, and the News will in wains attempt to prove the contrary.

THE " DOTON DE."-The Ozaukee Democrat reisomes the late Enow Nothing organ, the American, to the arms of the " Forty," saying: Col. Hart ways "truth will preval," and "cor-ruption shall be unmissed." From this, we un-derstand that he has dropped the Dutch Dr., and the corruption that sustained him, and will have, after will deal in truth, So.
